SPRING-YARD

CLEAN UP 2006

The Town of East Windsor has contracted with Waste Management to have a Spring Yard Clean Up the week of **May 8th through May 12th. PLEASE REMEMBER THIS IS NOT A BULK PICKUP.** Yard waste and brush are to be left curbside on your regular scheduled trash day. Yard waste must be in paper biodegradable bags. Brush must be bundled and cut into 4 ft. lengths and less than 6" in diameter. Waste Management will be collecting the yard waste in special trucks, not the regular trash truck. **Waste Management #289-7850.**

Hazardous Waste Day is June 10th from 8 a.m. - 1:00 p.m. at the East Windsor Town Hall, 11 Rye Street, Broad Brook, Connecticut.

For more information, contact, The Metropolitan District at www.themdc.com or call 860-278-3809.

* This list is created for informational purposes only and it should be noted that the roads/streets listed are not all town-owned roadways.

Household Hazardous Waste Day, June 10, 2006

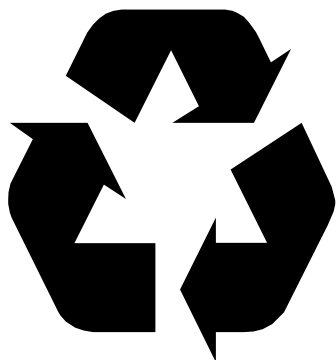

Household HazWaste Day, is scheduled for **June 10, 2006** at the East Windsor Town Hall, 11 Rye Street, Broad Brook from 8 a.m. - 1:00 p.m. For more information, collection dates, etc. call Public Works at 860-292-7073 or visit the MDC website at www.thdmdc.com.

Every household has hazardous waste. Right now there are potentially dangerous materials lurking throughout your home. Even everyday products, like solvents and cleaners, can pose serious health risks if swallowed, inhaled or mishandled. The containers for these products often leak or are spilled! Bring your hazardous waste to a MDC sponsored collection day and we'll dispose of it in a safe and environmentally responsible manner. You'll free up some room in the storage closet, but most importantly you'll be protecting the health of your kids, your spouse, your pets, and the environment.

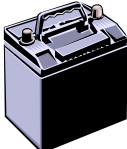

Many common materials found throughout your home are classified as hazardous. So, look high and low. Leave no stone unturned.

Items that can be brought to a Haz-Waste collection site are: Alkaline batteries, antifreeze, brake fluid, gasoline, mercury thermostats, oil based paints, paint strippers/thinners, rechargeable batteries, transmission fluid, turpentine, aerosol cans, ammonia, disinfectants, drain cleaners, floor care products, mercury thermometers, oven cleaners, polishes, adhesives, epoxy products and glues, artists' paints, charcoal lighter fluid, cleaning solvents, fungicides, herbicides, insecticides and pesticides, mercury, moth balls, pool chemicals.

Items that cannot be brought to a Haz-Waste collection site are: Asbestos, business waste, car batteries, electronics, empty containers of any kind, explosives, latex paint, medical waste, medicines, propane tanks, tires and waste oil. If you're not sure about an item, please call MDC at 860-278-3809.

Replacement recycling bins are available in the Tax Collectors office at Town Hall, 11 Rye Street for \$6.00 dollars.

What To Recycle	How To Prepare
Newspapers, Magazines, Catalogs 	Tie or place in a brown paper bag. No plastic bags. Place in the or next to orange recycling bin.
Glass food & beverage containers, Metal food & beverage containers #1 plastic containers, #2 plastic containers, Drink boxes, Juice cartons and Milk cartons	All containers must be empty and clean. Throw out lids as trash. Remove straws from drink boxes. Empty and rinse out cartons and drink boxes. Place together in orange recycling bin
Corrugated Cardboard 	Remove packing material. Flatten boxes, fold into 3 feet squared. Tie into bundles. Place underneath orange recycling bin.
Waste Motor Oil 	Put used motor oil in a labeled, non-breakable container with a tightly fitting screw top. No more than Six (6) quarts per week. Place next to other recyclables.
Car Batteries 	Must have caps in place. Place next to other recyclables.
